

Killam Elementary School Field Master Plan Notes

- Install 3 swing bays in existing location including: (Completed)
 - Adaptive swing
 - 1 Bucket swing for tots
 - 4 Strap swings
- Install small tot play area for K – 1st grade adjacent to existing playground
- Renovate existing playground.
- Install Rubber Mulch (Green) and synthetic curbing and ADA ramp for all play areas.
- Two additional town standard benches.
- Shade area for sitting.
- Install an ADA path from the parking lot to both play areas as well as the swing
- Renovate backstop on ball field – equipped with protective wings for bench area and over hang for foul ball protection.
- Move the backstop back closer to the lot to enlarge the field.
- Remove large stones next to the field.
- Remove fence along the south end of the property – use natural vegetation as boarder.
- Address grading issues on the infield.
- Additional clay to make the area less dusty.
- Parking lot on behind school needs to be replaced.
- Replace basketball hoops – Bring closer together.
